

INNOVATIVE METHODOLOGIES FOR TEACHING & LEARNING

Online Learning Course

NUMBER OF HOURS:

7-day Full Time Course (40h)

MODALITY of LEARNING: Online Learning.

LANGUAGE of COMMUNICATION: English.

(*) It is necessary to have a B2, or C1, or C2 level of English to take full advantage of participation in this course.

WHO IS THIS COURSE FOR?

The course is designed for **teachers** of Primary, Secondary, Vocational and Adult Education sectors who feel the need to expand their teaching repertoire and would like to innovate their methodological strategies. Teachers will have the opportunity to analyse approaches, exponents, and examples of innovative relevance, preparing them for the creation of materials, tasks and learning experiences for their students, within an active learning environment.

COURSE DESCRIPTION:

This course will introduce a selection of innovative methodologies for 21st Century teaching and learning, from a practical point of view. For example, Universal Design for Learning, Game-Based Learning and Gamification, Digital Competence Framework, Critical Thinking, Creativity, Collaboration, Communication, Project-based Learning, etc.)

Innovations are driven by a desire for excellence and continuous improvement, and the way we teach (our methodology) should provide meaningful and effective learning opportunities for students. Moving on from the sage on the stage towards being the guide on the side, teachers need to create a bridge between established teaching approaches and innovative paths of doing things in a more suitable way for the times we live in. Participants will appreciate how education can be approached from a variety of perspectives to discover new pathways for teaching and learning, during a time of educational change.

As an online learning programme, this course is an effective combination of the following elements:

- **Online Live lessons** where **60% of the course** is devoted to interaction with your tutor and course colleagues, by video conferencing and live-streaming workshops on a dedicated virtual platform.
- **Autonomous learning:** Flexible but necessary time to successfully complete the course.

OBJECTIVES:

- Present a panorama of innovative and effective methodologies for the development of successful learning experiences.
- Help participants to use innovative tools, techniques, and strategies as a supporting part of the foundation of quality learning and teaching processes.
- Assist participants in developing digital skills for implementation of innovative methodologies for teaching.

- Encourage participants to create and adapt didactic materials as a bridge between theory and practice when implementing innovative teaching methodologies.
- Provide opportunities to interact with colleagues of other nationalities, and exchange ideas and experiences.
- Motivate participants to develop their communication skills through their participation in the course and as preparation for their involvement in future European experiences.
