

## ENGLISH FOR TEACHERS (A2, B1)

### LOCATION

IRELAND: Dublin

### TARGET AUDIENCE

Teachers (primary, secondary, vocational, adult, etc.)

### DESCRIPTION OF TRAINING

The course has been designed to help teachers with a A2 or B1 level of English (according to the Common European Level of Reference for Languages - CEFR) to develop their communicative competence in English to allow them to interact with confidence in class and in everyday situations. The course offers a combination of English-focused classes, workshops and field projects through which participants will delve deep into the Irish culture and bring real life to the classroom context and vice versa. Participants will join in on field projects to places of historical, geographical, and environmental significance within the Irish heritage and way of life and use this as inspiration for creating learning content through context.

### Objectives:

- To help participants improve their language skills, especially oral fluency, and enable them to incorporate English into classroom situations and daily life.
- To promote a European dimension in education to raise awareness and understanding of other cultures and countries.

### Methodology:

A communicative approach to language learning enhanced by using real contexts, which in this case is the city of Dublin, will help participants to develop their communicative skills in a very natural way. Participants will be invited to open their senses to the sights, smells and sounds of their surroundings. Through group activities and field projects participants are encouraged to interact with each other and develop their communication skills in English.
